We strongly recommend avoiding travels and socialising during Chuseok holiday

As we are nearing this year's holiday in the middle of the COVID-19 pandemic, we strongly encourage you to minimise travels and socialising during the holiday to safeguard Korea from the spread of COVID-19.
We kindly ask for your consistent engagement for this cause.

Here are key recommendations we ask you to practice.

■ **Do minimise inter-city or inter-provincial travels and participating in events hosted by your expat community.**

a. Make the best use of social networking services or video calls to contact your loved ones rather than paying a risky visit.

b. All types of socialising and participating in other group gatherings such as religious worships are discouraged, regardless of group size.

■ **Do minimise visiting enclosed crowded places (e.g. clubs, pubs).**

This also applies to franchise hypermarkets and traditional outdoor markets. Do not get lured to offering free food samples at such places.

■ **Make sure ancestor worships are brief and small as possible if it cannot be avoided.**

Wear a face mask, periodically ventilate the venue, wash hands and disinfect items used for the rituals.

■ **Do avoid paying visits to ancestral graves or a columbarium visit www.ehaneul.go.kr for safer options of paying due respect to your ancestors.**

Services of this website will be available from 21 September 2020.

■ **Do avoid paying visits to care homes.**
